UK MEDICAL EDUCATION LIMITED

3RD ANNUAL

LONDON ORTHOPAEDIC MEETING

Innovating, Educating, and Elevating Orthopaedic Practice

THE ROYAL COLLEGE OF SURGEONS OF ENGLAND HAS AWARDED UP TO 13.5 CPD POINTS

04TH-05TH JUNE 2026

The Chicago Booth London Conference Centre

For more information please contact us at **Contact@ukmeded.com**

Event Overview:

We are delighted to present the **3rd Annual London Orthopaedic Meeting**, organised by **UK Medical** Education, taking place on **4th–5th June 2026** at The Chicago Booth London Conference Centre. Building on the **strong foundation** of our 2024 and 2025 meetings which brought together distinguished **surgeons, multidisciplinary clinicians, and key industry partners** this edition aims to further elevate the standard of **orthopaedic education, collaboration, and clinical excellence in the UK and beyond.**

As orthopaedic practice continues to **evolve with rapid technological progress and emerging clinical evidence**, this conference has been carefully designed to serve as a comprehensive platform for orthopaedic surgeons, sports physicians, general practitioners, trainees, allied health professionals, and industry innovators. **Over the course of two days, attendees will gain exposure to cutting-edge developments, evolving surgical techniques, complex case management strategies,** and the latest advancements in diagnostics, innovation, and operative technologies.

The 2026 programme features expert-led keynote sessions, structured panel discussions, **FRCS-focused teaching**, and **practical case-based learning** across a broad range of subspecialties. Topics will span minimally **invasive surgery, trauma and reconstruction**, sports orthopaedics, upper and lower limb updates, advancements in **biologics and implants**, perioperative care, and the integration of new technologies into **surgical decision-making.**

A dedicated emphasis will also be placed on FRCS preparation, offering trainees valuable insight from experienced consultants on **exam strategy, complex cases, and high-yield topics making this meeting an essential educational opportunity for surgeons progressing through their training milestones.**

Beyond the scientific agenda, the London Orthopaedic Meeting serves as a **premier networking forum**, bringing together renowned speakers, healthcare professionals, and industry exhibitors. **Attendees are encouraged to engage actively with faculty members,** interact with innovation partners, and share experiences with peers tofoster **meaningful collaboration and exchange of ideas.**

As we move into our third year, our goal stays clear: to **support, elevate, and advance the orthopaedic community through education,** innovation, and partnership. We look forward to welcoming you to London for an **inspiring and impactful meeting.**

Join Us

as we advance orthopaedic excellence through innovationand collaboration!

Arthrex: As a major player in the field of orthopaedic surgery for over 40 years, Arthrex produces and distributes medical devices in over one hundred countries around the world. Arthrex UK was established in 1996. Pursuing the mission of Helping Surgeons Treat Their Patients Better Arthrex has become a pioneer in the field of arthroscopy and has thus created more than 14,000 surgical products and procedures offering real advances in the practice of minimally invasive orthopaedic surgery.

Marquardt UK Ltd: Marquardt Medizintechnik is based in Spaichingen, Germany. Founded in 1980 since then production has been consistently geared towards medical implantsThus, Medical engineering solutions by Marquardt Medizintechnik offer the highest level of innovation, quality and service which isthe decisive criteria for excellence in medical engineering. Please visit our website – www.marquardt-uk.com

---

SILVER SPONSOR

Smith+Nephew:
Smith+Nephew is a portfolio medical technology company focused on the repair, regeneration and replacement of soft and hard tissue.

LEDA is an independent British orthopaedic distribution company focused on delivering high-quality products and exceptional service. The company specialises in upper extremity trauma solutions through partnerships with leading brands, including **Skeletal Dynamics**, **Toby Ortho**, and **Lepine**. **LEDA** also provides innovative solutions for theatre efficiency, pelvic reconstruction, nerve assessment, and bespoke orthopaedic instrumentation. In 2019, they launched **Ortholove**, offering specialised patient positioners for trauma and foot & ankle surgery.

Osteotec was founded three decades ago with a single goal – to improve people's health at every stage of their life, delivering products and services with integrity and accountability. While the solutions we provide clinicians may have changed over the past 30 years, our commitment to helping deliver the best patient care possible has never wavered. Today, we're still motivated by the same values, with an unfaltering dedication to creating a workplace in which our people can grow and thrive. And that focus won't change as we tackle healthcare's challenges together with our customers, partners, and patients at the heart of everything we do.

BRONZE SPONSOR

Medartis Ltd.: Medartis is the global innovation leader in implants for osteosynthesis in the fields of cranio-maxillofacial surgery as well as upper and lower extremities. Our products contribute significantly to the optimal restoration of bone fractures. This shortens the rehabilitation period for the patients and noticeably improves their quality of life.

Hospital Innovations : was founded in 2008, Hospital Innovations has been supplying a growing range of specialist products for use in orthopaedic and corrective surgery. We are a Human Tissue Authority (HTA) licensed establishment, working in partnership with six of the world's leading tissue banks. We pride ourselves on the delivery of outstanding customer support, always in the knowledge that our end-user is a person in need.

Stryker: Stryker Corporation is a global medical technology company that develops and manufactures a wide range of medical devices and equipment, primarily focusing on three main areas: Orthopaedics, Neurotechnology, and Medical and Surgical. The company is headquartered in Kalamazoo, Michigan.

TRB Chemedica (UK) | OSTENIL
Is the UK branch of the TRB Chemedica Group, providing research-driven therapies and medical solutions since 2002. The company specializes in rheumatology, ophthalmology, and neurology, offering innovative products for joint health, surgical care, precision orthopaedics, and eye care. With ISO 9001 certification and a strong partnership approach, TRB Chemedica UK focuses on improving patient outcomes through quality, innovation, and trusted healthcare solutions.

BRONZE SPONSOR

Advita Ortho
Is a global medical device company committed to advancing patient lives through innovative orthopedic solutions. We specialize in high-quality implants and a comprehensive suite of integrated surgical technologies that are powered by data, artificial intelligence, and machine learning. Offering trusted leadership and clinical expertise, Advita Ortho is uniquely positioned to advance mobility and improve lives worldwide. Learn more at advita.com.

Acumed
A Company Built on Ingenuity, Hard Work, and Compassion. What started as a small family business in 1988 has since evolved into a global market leader, providing orthopaedic and medical solutions that improve patient care around the world. Acumed serves highly skilled specialised surgeons who demand comprehensive, high quality medical devices for patients with simple to complex injuries for optimal restoration of function. With more than three decades of experience in the Orthopaedic industry, Acumed offers a wide selection of extremity fixation and specialty plates, nails and screws.

Vilex
As a dedicated lower extremity company, Vilex truly understands the unique needs that foot and ankle surgeons have while treating their patients. Focusing on innovation that is driven by surgeon feedback, we deliver a powerful portfolio of products created by surgeons, for surgeons. At Vilex, we break the mold of a traditional, large device company as we push forward to reimagine foot and ankle.

LAVENDER MEDICAL
Founded in 2009, Lavender Medical is strategically based just north of London in Letchworth, Hertfordshire. We specialise in supplying innovative osteosynthesis products to the orthopaedic community with a particular emphasis on extremities and fragility fractures throughout the skeletal system. The company represents several leading research-focused manufacturers from Europe and the rest of the world to bring the latest technology and techniques available in the field of fracture fixation to the United Kingdom.

BRONZE SPONSOR

Johnson & Johnson
Is a global healthcare company driving innovation in medical treatments, digital health, and life-changing research. The company also focuses on employee growth, well-being, and creating meaningful impact through science and leadership.

IGEA
Develops innovative biophysical therapies aimed at improving patients' quality of life through safe and effective clinical solutions. The company specializes in orthopedics and oncology, focusing on bone healing, joint preservation, and cancer treatment. IGEA is globally recognized for its advanced Electrochemotherapy technologies, including Cliniporator®, used for minimally invasive tumor treatment.

Bioventus
Home of EXOGEN® and DUROLANE® Bioventus is a global leader of innovations for active healing. Through a combination of internal product development, product/business acquisition, and distribution agreements, we bring to market products which address a growing need for clinically effective, cost efficient, minimally invasive medical treatments that engage and enhance the body's natural healing processes. Bioventus, the Bioventus logo, DUROLANE and EXOGEN are registered trademarks of **Bioventus LLC.**

NEWCLIP TECHNICS
Is a France-based medical company specializing in the design, manufacturing, and distribution of osteosynthesis implants for traumatology and elective surgery. Founded in 2002, the company focuses on innovation, quality, and performance, with advanced patented technologies like the Dual Tech System (DTS®). Operating in over 50 countries, NEWCLIP TECHNICS delivers high-tech surgical solutions while maintaining international quality standards.

Conference Conveners

Abhinav Gulihar

Consultant Orthopaedic Surgeon (Upper Limb and Trauma)

Princess Royal University Hospital, King's College Hospital NHS Foundation Trust

Abhi Gulihar is a fellowship trained orthopaedic surgeon specialising in surgery of the shoulder, elbow, wrist and hand. He has a special interest in shoulder replacement surgery and the management of sports injuries. Abhi believes in evidence-based practice whilst utilising the latest techniques, with an emphasis on patient centred care.

Abhi completed his specialist orthopaedic training in East Midlands and Kent, Surrey and Sussex and then went on to do fellowships at the Southwest London Elective Orthopaedic Centre and the European Arthroscopy Fellowship. He has also taken the opportunity to visit several experts in Shoulder surgery in Europe and USA to learn the latest advances and techniques. He now has a busy NHS practice at the Kings College Hospital NHS trust managing routine and complex conditions and injuries of the upper limb.

Robbie Ray

Orthopaedic Surgeon (Foot and Ankle)

Princess Royal University Hospital, King's College Hospital NHS Foundation Trust

Mr Ray is double international fellowship trained in Sydney, Australia and Toronto, Canada. He won the prestigious BOFAS Gold fellowship award for his time in Sydney. He initially worked as consultant foot and ankle surgeon at the world-renowned St George's Hospital major trauma centre. He has moved his NHS practice to Kings College Hospital Foundation trust do develop and modernise the elective foot and ankle service at the South sites.

Mr Ray has some of the most advanced training in minimally invasive surgery amongst UK surgeons and endeavours to deliver high quality, safe, modern treatments to his patients.

Advisory Board

Mohit Bansal

Consultant Orthopaedic Surgeon (Hip, Knee and Trauma)

Princess Royal University Hospital, King's College Hospital NHS Foundation Trust

Mr Bansal is a Consultant Orthopaedic Surgeon specializing in hip and knee surgery He has a special interest in treating wide range of hip and knee conditions including arthritis, sports injuries, and trauma. He has expertise not only in joint replacement for arthritic condition but also in joint preservation procedures such as partial knee replacement, osteotomies, and chondral procedures. Being a sports person himself, he gets immense gratification in treating patients with sports injuries. He is also extremely proficient in managing traumatic injuries of lower limbs.

Dominic Davenport

Consultant Orthopaedic Surgeon (Hip, Knee and Trauma)

Princess Royal University Hospital, King's College Hospital NHS Foundation Trust

Mr Dominic Davenport is a Consultant Orthopaedic surgeon who specialises in hipand knee surgery and management of lower limb injuries. Dominic qualified fromGuy's, King's and St. Thomas Medical School and completed higher surgical training in Trauma and Orthopaedic Surgery in South London, including rotations at Guys and St Thomas Hospitals, St. George's Hospital and Southwest London Elective Orthopaedic Centre (SWLEOC). He completed a Master's degree in Sports and Exercise Medicine at the University of Bath and then two specialist fellowship posts, learning advanced techniques in knee surgery at Guys Hospital and in hip surgery at the Royal Bournemouth Hospital. He has a particular interest in hip and kneereplacement including partial knee replacement and his current research activities include management of hip dysplasia, day-case hip and knee surgery, and optimisation of patients' health prior to joint replacement surgery. He has published widely in major Orthopaedic journals and regularly attends and presents at national and international conferences keeping up to date with the latest techniques. He has a passion for education, winning several awards for designing and delivering Orthopaedic training in the region, and has published journal articles and a textbook to assist medical students and junior doctors in their Orthopaedic training. Dominic focuses on a personalised, patient-centred approach to treatment and offers both non-operative and operative treatments for a wide variety of hip and knee problems in adult patients of all age groups.

Kishan Gokaraju

Consultant Orthopaedic Surgeon (Upper Limb and Trauma)

Princess Royal University Hospital, King's College Hospital NHS Foundation Trust

Kishan Gokaraju is a triple-fellowship trained upper limb surgeon at Kings College Hospital NHS Foundation Trust. Following training on the esteemed Stanmore rotation, he completed internationally renowned fellowships in Brisbane, Sheffield & Coventry. He has won the prestigious BESS, BOA and Watanabe travelling fellowship awards for experiences at Centres of Excellence in the UK, France & North America with world-leading surgeons. As a result, he has expertise in upper limb trauma and elective surgery, from shoulder to hand. He has significant academic success, including a Masters in Science (Trauma & Orthopaedics), published research in high-impact Orthopaedic journals and presented internationally. His main focus lies in education, having set-up and delivered several specialist upper limb programs and courses as well as being on the educational committee for both the South East London Orthopaedic training program and the British Elbow & Shoulder Society. As a result of this experience, clinically Kishan offers a high-quality, evidence-based practice, tailored towards the needs of each and every patient, including open, minimally-invasive and arthroscopic surgery.

Aanchal Jain

Consultant Orthopaedic Surgeon (Upper Limb and Trauma)

Princess Royal University Hospital, King's College Hospital NHS Foundation Trust

Aanchal Jain is a Consultant Hand and Wrist surgeon at the Princess Royal University Hospital. She qualified from Imperial College London and completed her specialist training on the Southwest London rotation. She has completed fellowships at prestigious institutions such as Queens Medical Centre, Nottingham, and the Pulver Taft Hand Unit, Derby. Ms Jain is active in medical education and is a member of faculty on several eminent national courses for surgeons. She has written book chapters, published in peer-reviewed journals and presented her work both nationally and internationally.

Max Edwards

Consultant Orthopaedic Surgeon (Hip, Knee and Trauma)

Princess Royal University Hospital

Max Edwards is an Orthopaedic Surgeon in South London, providing NHS services based at the Princess Royal University Hospital in Farnborough. Privately he consults at The Sloane Hospital in Beckenham and Chelsfield Park Hospital in Orpington. Although trained in general Orthopaedics and Trauma, he specialises in disorders of the Knee and Hip. Mr Edwards completed his surgical training in the Southeast Thames region (primarily at Guy's and St Thomas' Hospitals). He has recently returned from a year of advanced sub-specialist training in Toronto, Canada. During this fellowship, he gained expertise in the latest techniques for treating disorders of the Knee and Hip. These include primary and revision arthroplasty, hip resurfacing, computer navigation and joint preserving procedures (like osteotomies around the knee, and microfracture). Alongside the development of his current busy NHS practice, he has specific interests in medical education and research. His research has led to numerous presentations all over the world and publications in internationally renowned Orthopaedic journals. He is committed to providing the highest quality of Orthopaedic care, with a patient centred and evidence-based approach.

Razi Zaidi

Consultant Foot & Ankle Surgeon

Princess Royal University Hospital, King's College Hospital NHS Foundation Trust

Mr Razi Zaidi is a highly skilled and accomplished Consultant Orthopaedic Surgeon specialising in foot and ankle surgery. With extensive training and experience in trauma and orthopaedic surgery, he is recognised for his expertise in managing complex foot and ankle pathologies, including total ankle replacement, arthrodesis, diabetic foot management, and minimally invasive techniques.

Conference Schedule Day 01

8:00 – 08:30	**Conference Registration**
8:30 – 09:00	**Introduction** to the Program and Welcome Note by the Faculty

SESSION 1: Knee Session — Conference Room 2

9:00 – 11:00	**Research Oral Representations**	**Abstract Session Timetable**
9:00 – 09:15	**Pediatric ACL Injuries and Management** **Federica Rosso**, Orthopedic surgeon, **University of Turin**	**Start Time: 09:15 AM** **9:15 – 9:22** Reducing Delays to Surgery in Hip Fracture Patients on Direct Oral Anticoagulants **Dr. Miranda Maharaj**
9:15 – 09:30	**Role of osteotomy in ACL reconstruction. Indications and outcomes** **Raghbir Khakha**, Consultant trauma and orthopaedic surgeon, **Guy's and St Thomas Hospital**	**9:22 – 9:29** High-Volume Philanthropic Management of Pediatric Orthopedic Deformities: A Demographic and Clinical Outcome Analysis of 1,269 Procedures **Dr. Amjad Gulzar Ahmed Shaikh**
9:30 – 09:45	**Knee Chondral lesion: Current practice and Innovation**. **Khalid Al-Hourani,** Consultant Orthopaedic Knee Surgeon, **Frimley Park Hospital**	**9:29 – 9:36** Closing the Gap in Secondary Fracture Prevention: A Quality Improvement Project Evaluating Adherence to BOA Fracture Liaison Service Standards in Primary Care **Muhammad Haris Ilyas**
		9:36 – 9:46 **Q&A Session 1**

9:45 – 10:00

Current Concepts in PFJ instability
Zuhair Nawaz, Consultant, **Spire Clare Park Hospital**

10:00 – 10:15

Assessment and Management of Problem Knee
Chris Buckle, Consultant Orthopaedic Surgeon, **Guy's and St Thomas Hospital**

10:15 – 10:30

Robotic-Assisted Knee Arthroplasty: Current Concepts
Asif Parkar, Consultant Trauma & Orthopaedic Knee & Hip Surgeon, **Queens Hospital Romford**

9:46 – 9:53

Consultant-Led Orthopaedic Teaching for Nursing Staff at a Major Trauma Centre: Early Outcomes from a Multidisciplinary Teaching Programme
Miss Katy Gibson

9:53 – 10:00

Minimally Invasive PIP Joint Fusion of the Second Toe with Hallux Valgus Correction: A Prospective Case Series
Ms Lilanthi Wickramarachchi

10:00 – 10:07

Complete vs Incomplete Percutaneous Oblique Distal Closing Wedge Osteotomy for Bunionette (Tailor's Bunion) Deformity Correction
Sanjana Mehrotra

10:07 – 10:17

Q&A Session 2

10:17 – 10:24

Endoscopic Flexor Hallucis Longus Transfer With Interference Screw and Additional Tension Slide Cortical Button for Chronic Achilles Tendon Rupture
Sanjana Mehrotra

10:24 – 10:31

Radiological and Functional Outcomes of Proximal Humerus Fracture Fixation: A Comparison of Cases With and Without Strut Allograft Augmentation
Siddhartha Murhekar

10:30– 10:45

Controversies in Revision Knee Replacement: Single-Stage or Two-Stage

John Stammers, Trauma & Orthopaedic Consultant, **RNOH Stanmore**

10:31 – 10:38

A Novel Immersive Virtual Reality and Robotic Foot and Ankle Arthroscopy Surgical Simulator with Eye Tracking: A Preliminary Usability Study

Sushruth R Vakkaleri

10:38 – 10:45

Implant Detect: Real-Time Web-Based Implant Identification from Radiographic Imaging

Vineet Batta

10:45– 11:00 **Question & Answer Round**

10:45 – 10:55

Final Q&A Session

11:00– 11:30 **Networking Coffee Break**

SESSION: 2

	Primary Total Hip ReplacementSession	Foot and Ankle Allied Professional Advanced
11:30 – 11:45	**Intro and Current Trends in total hip replacement** **Dominic Davenport,** Consultant Orthopaedic Surgeon (Hip, Knee and Trauma)**, Princess Royal University Hospital Bromley**	**Assessment Beyond "It's Flat"** **Clinical Decision-Making That Drives Treatment** → Functional exam, staging, red flags, treatment planning Liam Stapleton, **Specialist in Podiatric Sports Medicine Harley Street Specialist Hospital**
11:45 – 12:00	**Patient experience, rehab and recovery after total hip replacement** **Tom Cornish,** Owner**, PureForm**	**Motor Control Over Strength** **Re-Training the Failing Flatfoot:** An approach to rehabilitation **Gemma Clark**, Team Lead Physiotherapist in Virtual Fracture Clinic (VFC) & Musculoskeletal Outpatients**, King's College Hospital NHS Foundation Trust**
12:00 – 12:15	**Management of complex primary total hip replacement** **Jerome Davidson** ,Consultant trauma and orthopaedic surgeon**, Guy's & St.Thomas' Hospital**	**Footwear as Treatment** **Simple Adaptations That Modify Load** → Rocker soles, stiffness, heel drop, cost-effective changes **Matthew Collison, Specialist MSK , Sports Podiatrist, Foot Factor**

SESSION: 2

	Primary Total Hip ReplacementSession	Foot and Ankle Allied Professional Advanced
12:15 – 12:30	**Clinical focus on Robotic-Assisted total hip replacement** **Matt Gee,** Consultant Orthopaedic and Trauma Surgeon**, King's College Hospital**	**Progressive Loading Strategies"** **Rebuilding Capacity in Adult Flatfoot** → Tendon loading, timelines, regress/progress models **David Donne, Osteopath, Pureform Clinic** **Osteopat,Peform**
12:30 – 12:45	**Clinical assessment and functional outcomes after robotic-assisted total hip replacement** **Tom Wainwright,** Professor of Orthopaedics and Deputy Head of Orthopaedic Research Institute**,** **Bournemouth University**	**Orthoses as a Dynamic Intervention** **When Shoes Aren't Enough** → Prescription logic, modifications, weaning strategies **Justin Coulter, Musculoskeletal Podiatrist, First Podiatry Ltd**
12:45 – 13:00	**CT planning and consideration of spinopelvic alignment in Robotic-Assisted total hip replacement** **Andreas Fontalis,** Trauma and Orthopaedic Surgery Specialist Registrar**,** **University College Hospital London**	**When Conservative Care Has Truly Failed** **Defining Plateaus, Not Giving Up** → Identifying ceilings, referral timing, shared decisions **Andre Beson, Director & Lead Physiotherapist, Physico**

SESSION: 2

	Primary Total Hip ReplacementSession	Foot and Ankle Allied Professional Advanced
13:00– 13:15	**Management of common complications after total hip replacement** **Tom White,** Consultant Orthopaedic Surgeon, **University Hospital Lewisham**	13:00– 13:30 **Cases and Discussions**
13:15– 13:30	**Question & Answer Round**	
13:30– 14:30	**Lunch & Networking Break**	13:30 – 14:30 **CasGP Update Sessiones**

SESSION 3: Foot & Ankle

Flatfoot

Chair: Robbie Ray, Consultant Orthopaedic Surgeon (Foot and Ankle)**, Princess Royal University Hospital)**

Panel Razi Zaidi Consultant Orthopaedic Surgeon (Foot and Ankle)**, Princess Royal University**

Ryan Geleit Consultant Orthopaedic Surgeon (Foot and Ankle)**, Princess Royal University**

14:30 – 14:45	**Introduction** to flatfoot pathophysiology and clinical exam **Bal Dhinsa**, Consultant Orthopaedic Foot and Ankle Surgeon, **Spire Healthcare Group plc**
14:45 – 15:00	**Management of flatfoot deformity** lessons learned over a career in treating flatfoot deformity **Robert Lloyd Williams**, Consultant Orthopaedic foot and ankle surgeon, **London Orthopaedic Clinic**
15:00 – 15:10	**Open calcaneal osteotomy (debate vs MIS)** **Maneesh Bhatia**, Consultant Orthopaedics Foot & Ankle Surgeon, **University Hospitals of Leicester NHS Trust**
15:10 – 15:20	**MIS calcaneral osteotomy (debate vs Open)** **Rohit Madhav**, Consultant Orthopaedic Foot and Ankle Surgeon, **Spire Bushey Hospital**
15:20 – 15:30	**Questions to all speakers**
15:30 – 15:45	**Hallux valgus and flatfoot** **Lyndon Mason**, Consultant Orthopaedic Foot and Ankle Surgeon, Foot and Ankle Lead, **The NHS University Hospitals of Liverpool**
15:45 – 16:00	**Endoscopic FDL transfer** **Marc Elkaim**, Consultant Orthopaedic Foot and Ankle Surgeon, **DROUOT Clinic**
16:00 – 16:10	**Lateral column lengthening (debate vs arthroereisis)** **Donatas Chlebinskas**, Consultant Orthopaedic Foot and Ankle Surgeon, **Klaipėdos Universiteto Ligoninė**
16:10 – 16:20	**Arthroeresis (debate vs lateral column lengthening)** **Callum Clark**, Consultant Orthopaedic Foot and Ankle Surgeon, **Fortius Clinic**
16:20	**Questions to all speakers**

Closing Remarks by the Faculty
Drinks Reception | Networking | Faculty Dinner

Conference Schedule Day 02

Sarah Shamia	Physiotherapist	Boost Physio	Delegate

ABOUT UK MEDICAL EDUCATION

UK Medical Education Limited, headquartered in London, was founded by leading orthopaedic surgeons, **Mr. Abhinav Gulihar, Consultant Orthopaedic Surgeon (Upper Limb and Trauma) at Princess Royal University Hospital, King's College Hospital NHS Foundation Trust,** and **Mr. Robbie Ray, Orthopaedic Surgeon.** Our mission is to create impactful educational platforms through high-quality conferences focused on the latest developments in orthopaedic advanced surgery.
At UK Medical Education Limited, our conferences are designed to facilitate the exchange of knowledge among healthcare professionals, researchers, and innovators in the field of orthopaedics. We bring together expert speakers and participants from around the world, enabling them to share insights, explore new techniques, and engage in peer networking. Our focus on Minimally Invasive Surgery ensures that attendees stay at the forefront of surgical advancements, with discussions ranging from innovative technologies to the latest clinical practices
.
In addition to facilitating knowledge exchange, our conferences offer an ideal setting for building strong professional networks. We believe that meaningful connections between surgeons, medical professionals, and industry leaders are essential for driving collaborative innovations and improving patient outcomes. Our events are tailored to create a vibrant and interactive environment where ideas flow freely, encouraging attendees to form partnerships that can advance the field of orthopaedic surgery.

We are committed to making our conferences an annual fixture, giving ongoing opportunities for orthopaedic professionals to enhance their ability and collaborate on shaping the future of surgery. Our goal is to continually foster an environment where learning, innovation, and collaboration drive the evolution of orthopaedic care.
